

POLICY

Umatilla County patrons Who Move within the County

Adopted by District Board June 10, 2010

Umatilla County patrons moving to a new city within the county will normally be issued a new home library card from the new city library after clearing any prior blocks or holds. When a new card is issued the new home library shall promptly notify the former home library to delete the old patron record.

There may be circumstances (i.e. patron move is very short term) at the discretion of the patron's new home library to allow a patron to keep their current card longer perhaps until the expiration date. If allowed the new home library will update the current patron record to include a note of the circumstances and notify their former home library.
