Annual Library Service Plan
Fiscal Year 2015-2016

Library Mission Statement

The mission of the Milton-Freewater Public Library is to provide access to informational, educational, and recreational materials to residents of the library's service area

1. Early Childhood Program

Goals and Objectives: The library strives to provide quality early literacy services to the children in our community by providing weekly and monthly story time programs for children 0-5. These programs have not always been well attended and it is our goal to strengthen those programs and help them grow by promoting the program, and by budgeting more funds for those programs.

2. K-12 Youth Programs

Goals and objectives: In the past our library has not seen a large number of school aged children attending programs and coming in to the library. We hope to change that this year by providing more programming opportunities, and with the creation of our new teen room in the library. We hope that our teen room will give children a comfortable place to go to play games, socialize, and have fun. We will also be starting a monthly makerspace program in the fall for our teens. We hope that with the new programming opportunities and teen room that school aged children will feel more comfortable in the library, and will visit us more frequently.

6. Welcoming/User Friendly Atmosphere

Goals and objectives: This year we hope to increase our circulation, computer use, and overall use by creating a welcoming atmosphere for our library patrons. We will accomplish this by working to have an increased staff and volunteer presence at the front desk who greet patrons as they come into the door, and provide an exceptional customer experience for our patrons.
