Echo Public Library Automated

The Umatilla County Special Library District (UCSLD) is proud to announce that Echo Public Library is now part of the automated online Sage Library System. Echo Public Library joins the other 11 city libraries in the County that are already using this system.

Echo Public Library members now have direct access to over 1.6 million library items available through Sage Library Consortium and its 77 member libraries in fifteen eastern and central Oregon counties. In addition, UCSLD provides five on-line databases: Library2Go, downloadable audiobooks, videos and e-books for e-readers; Livemocha, an on-line language learning service; Ancestry Library Edition and HeritageQuest -- two separate genealogical services; and EBSCO auto repair manuals, providing repair instructions for most models back to 1945. These databases are now available to Echo library members through the Echo Public Library web site, with the exception of Ancestry Library Edition which is only available from within the library.

Library materials at the Echo Public Library can now be accessed and borrowed by anyone with a city library card in Umatilla County.

Echo Public Library patrons will need to get a new Echo Public Library card to take advantage of these services. For more information contact the Echo Public Library at 541-376-8411.

UCSLD's mission is to support the development of public libraries in Umatilla County to provide services, programs, and continuing educational opportunities to individuals of all ages, thereby strengthening their communities through individual, family, economic, and community development.
