

Pilot Rock Library 2020/2021

Vision for the Future: Have the library be a welcome & friendly place for community to gather. Work on finding ways to encourage adults/youth/children to stop by

1.Goal: Youth

Needs addressing: Children are not using the library.

Priority(ies):

Year 1 activities

Have added more middle grade and graphic novels to better serve the community. Having Lego's and toys available has encouraged children and parents to stay longer.

Year 2 activities

In light of Covid-19 I will change some of my children's outreach to making crafts/reading/worksheets available for children and parents to pick up & take home

2.Goal: Better online presence

Needs addressing: Not using technology/social media enough.

Priority(ies): Develop an online presence.

Year 1 activities

Work on posting on Facebook, try to do it several times a week. Every day would be better. Keep website up to date. This continues to be a difficulty, will try to work on being more consistent.

Year 2 activities

Design a new website-make it more interesting, more user friendly and interactive.

Goal: More adult interest in library

Needs addressing: More adult interest in the library.

Priority(ies): Encourage people to take advantage of everything the library has. Much more than just books.

Year 1 activities

Continue with book club and try to expand it. Consider an online book club. See if there is an interest in the community. Make new/different interesting window displays and seasonal decorations.

Year 2 activities

Get out in the community more. Participate in community programs, volunteer, outreach to senior/homebound patrons. Offer more adult programming. This depends on how long till restrictions are lifted.
