

Umatilla Public Library

Annual Library Service Plan

2018-19

Library Vision for the Future:

To have more Adult Programming to create more interest in the Library for our adult patrons.

As of now, we have no Adult Programs.

We have tried Book Clubs twice, and both times, people lost interest.

Our Links program has also ended. Attempts to get in touch with the person in charge have failed and we don't have any other means of communication with him. We would love to start again; perhaps find a new person for this?

Goal:

1. To have a different program once a month.
2. Get the Links back, exchanging books once a month; if the program is a hit, have it more often.

What to Address: Decide what programs to have and when, what prizes to award.

Fundraising for support? Book Sales...

Priority: Adult Programming

Year 1 Activities: After deciding what programs to have, advertise on the radio, in newspapers, on our Facebook page and print flyers. After having already put out a survey, we've received some ideas, mostly technology based. We could have a Movie Night, Board Game Night, Cards, a Computer workshop for beginners, intermediate users. Have more than one activity going on any given night.
