

Umatilla Public Library  
2017-2018  
Annual Library Service Report

Our goals were to have more activities for the older kids, but the person who was going to do this moved away and it kind of fell thru. But we are still going to do more things for the older kids. Board Game Tournaments, Building planks contest, book tasting event.

We were trying to do something for the older kids to get them to come into the library and see that we are not a dusty and stuffy place. That they can come here and have fun. Our long term goal is to add more activities for the older kids.

One of our challenges is to get the kids to come in, we have to know what is going on at school, so we can plan around that.

Our Friends Group has been dissolved, they felt that they had no purpose anymore, since the new library was built. We will try and get a new Friends Group started in the future. I have started going to the meetings that are being offered for Friends Groups.

Our community relations program is good, we have a Facebook page that we put our upcoming events on, the city puts out a newsletter out every three months, we put things in that as well.

We have brochures for the library that we mention the district in. We tell the customers about how the district pays for the data bases, and the courier.
