

The Magic of
Tidying up Your Library
(with apologies to Marie Kondo)

Why do we need to tidy up?

- For the sake of the staff's mental health
- To create a more calm and useable space for patrons
- Visual clutter is stressful
- If we are preparing for succession

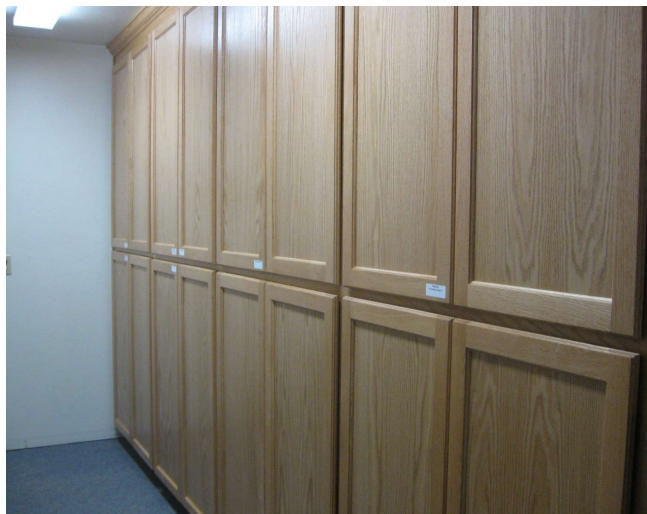

How did we get such a mess?

- We inherited it
- We hesitate to throw away what we didn't collect
- We now need to accumulate things we didn't previously use

What needs to be tidied up?

- The Collection
- Files
- Technology
- Supplies
- Furniture

What's the most interesting or disgusting thing you've ever found when tidying up?
